

Interested in reducing your school's energy costs?

Sign up today for a free training course to find out how you could save money by better managing your school's energy use.

The Energy in Education programme offers a range of supports developed by the Sustainable Energy Authority of Ireland (SEAI) in collaboration with the Department of Education and Skills designed to help schools to improve energy management practices, reduce school operating costs and protect the environment.

Attend an energy management course

More than 400 schools from all over Ireland have already taken part in Energy Management courses. Participants are guided step by step through the energy management process from understanding bills and energy use in the school to developing and implementing an energy saving plan.

To save your school energy and money visit www.energyineducation.ie

The course involves attending two half-day workshops where schools are given access to a range of resources, online tools, expert advice and opportunities to network and share knowledge & experiences with other schools.

Schools that attend courses can apply for an Assessment, Mentoring and Advice (AMA) service, including a site visit and report to assist in identifying and implementing energy saving opportunities.

Read case stories from a range of schools around Ireland [here](#).

Book the course now!

We are working in partnership with the Energy in Education Programme to offer Energy Management courses. To register and for more information email energyineducation@seai.ie and request a registration form.
