

## NIMS Learning

NIMS Learning is an e-learning platform created by the State Claims Agency (SCA), the claims and risk management arm of the National Treasury Management Agency (NTMA), to support Delegated State Authorities (DSAs) who use the National Incident Management System (NIMS).

The SCA developed the platform following consultation and engagement with DSAs. Courses are delivered through a mix of video tutorials and demos, practical exercises, scenarios and examples.

The first e-learning modules available to DSAs are: Introduction to the National Incident Management System: Sessions 1 and 2.

### Session 1: Incident - Lifecycle (40 mins)

- Introducing NIMS & incident reporting
- Getting familiar with NIMS
- NIMS in action

### Session 2: Incident - Classification (40 mins)

- Incident Classification
- Hazard Classification

## Why use it?

- **It's mandatory** - for new NIMS users, that is!
- **Quicker course delivery times** than traditional classroom-based training
- **Learn from anywhere** - accessible 24/7 from PCs and tablets
- **Easy to use** and fit into your day
- Delivers **hands on, self-paced, and effective** learning
- Go back to **refresh your knowledge** on an ongoing basis
- Apply learnings to your job **immediately**
- **Blended learning approach** helps learners to better retain knowledge
- **Certificate of Award** on completion

## Who should use it?

The platform is targeted at all NIMS users, including data entry personnel and risk management professionals.

All new NIMS users must complete the NIMS introductory e-learning modules before receiving a login to NIMS. Current users are also encouraged to take the opportunity to refresh and update their knowledge of NIMS by completing the module.
